## COVID-19 Vaccine Update 1.11.21

Dear Glenville Patients,

We have been receiving many questions concerning distribution and availability of COVID-19 vaccines. Unfortunately at this time, private practices are not yet receiving the vaccine to administer to their patients.

Our team has done some research to further assist you with eligibility for the vaccine, and finding vaccine centers near you. Here's what we know:

For **New York** state residents:

As of January 11, 2021, patient 75 years and older and various first responders, including teachers, are eligible for the vaccine. Please click on this link for the latest information, and answers to all your questions:

[\*\*COVID-19 Vaccine NY.Gov\*\*](#)

There is also a New York state COVID-19 vaccine hotline at 1-833-697-4829 to further assist those without Internet access.

For **Connecticut** residents:

Connecticut's Governor Lamont is currently releasing plans for phase 1b distribution.

Please click on this link for further information:

We will send more information as it becomes available. If you have trouble connecting to the sites above on your phone, please try using your laptop/desktop computer.

Stay safe and well,

Steven Mickley, MD Judith Shea, MD Jeffrey Puglisi, MD Ralph Cipriani, MD
